

NITheCS ROADSHOW:
Eastern Cape & Free State Node

YOU'RE Invited

ATTEND A TALK BY:

Prof Francesco Petruccione

Director of NITheCS

NITheCS is a national research institute that advances knowledge, collaboration and innovation across the theoretical and computational sciences in South Africa and wider Africa.

Join us to connect with our Associates in the Eastern Cape & Free State node and learn more about NITheCS and opportunities for engagement across our fields of research.

Who should attend?

NITheCS Associates, academics, early-career researchers and students at Nelson Mandela University and other universities in the Eastern Cape & Free State node whose work aligns with the NITheCS disciplines of theoretical and computational science:

- Astronomy & Astrophysics
- Bioinformatics & Quantitative Biology
- Data Science
- Earth Systems Modelling & Climate Change Modelling
- Mathematics
- Quantitative Finance
- Statistics
- Theoretical Physics
