

1-3 June
2022

Applications open for **CARPENTRIES INSTRUCTOR TRAINING**

Take the first step towards certifying and participating as a **Carpentries Instructor**

Carpentries Instructor Training aims to:

- Introduce you to evidence-based teaching practices.
- Teach you how to create a positive environment for learners at workshops.
- Provide opportunities for you to practice and build your teaching skills.
- Help you become integrated into the Carpentries community.
- Prepare you to use these teaching skills in teaching Carpentries workshops.

DETAILS

Who can attend?

Graduate students and other researchers. You do not need any specific programming skills but you need to know enough about the subjects of one or more of our lessons to be able to teach them.

Where and when:

1-3 June 2022:

- 1-2 June: 09h00-17h00
- 3 June: 09h00-13h00 (for optional instructor checkout)

The training takes place **online**.

Pre-event preparation:

- Complete our Pre-training Survey (you will get it in a custom link with your connection information).
- Select a lesson for teaching practice sessions and prepare a 3 minute segment, spending no more than 20-30 minutes to prepare.
- Please read the following:
 1. The Science of Learning (<https://bit.ly/3yMDHG7>)
 2. The Carpentries Annual Report (<https://bit.ly/3PvNJkJ>)

HOW TO APPLY

Register on <https://bit.ly/3l1cz9k> by 25 May 2022.

Only successful applicants will be notified by 27 May, so they can prepare for the event.
