

# QML Meetup

*Join us for the quantum machine learning meetup, where we host amazing QML researchers and hear about their work, followed by a Q&A discussion.*

**WHEN:** 31 March, 1pm EST/ 7pm SAST

**WHERE:** Register here or visit: [http://bit.ly/qml\\_meetup6](http://bit.ly/qml_meetup6)

**WHO:** Matthias Caro is a doctoral candidate at the Mathematics Department of the Technical University of Munich. He works on Quantum Learning Theory, Classical Learning Theory and Quantum Markovianity.

**Generalization guarantees for variational quantum machine learning**

*For more info on this event, please join the Quantum Open Source Foundation (QOSF) slack channel and contact Aroosa Ijaz, Amira Abbas, or Antal Szava*
