

Are you interested
in Data Science and
Computational
Thinking?

Would you
like to learn
Python

Do you want to
upskill yourself
for 4IR?

As part of its mandate to build capacity in Data Science and Computational Thinking across Africa, the **School for Data Science and Computational Thinking at Stellenbosch University** is proud to present a series of online lectures in Data Science and Computational Thinking from 26th to 30th of July. This course, brought to you by Standard Bank Lab, in partnership with the Institute of Theoretical and Computational Sciences (NITheCS), is open to all students and practitioners with one semester of university mathematics. Computer programming experience is not required. The course will consist of video recordings, coding sessions, and live tutorials. There is no cost to attendance, but seats are limited. Please note, participants may qualify for an attendance certificate from NITheCS.
