DATA@BREAKFAST

You are invited to the next data@breakfast webinar by

Angelique Trusler

(The Carpentries)

The Carpentries: An open-access community

Friday, 01 October @ 07h30

The event will be hosted via Zoom

[CLICK HERE TO REGISTER](#)

ABSTRACT

The Carpentries builds global capacity in essential data and computational skills for conducting efficient, open, and reproducible research. We train and foster an active, inclusive, diverse community of learners and instructors that promotes and models the importance of software and data in research. We collaboratively develop openly available lessons and deliver these lessons using evidence-based teaching practices. We focus on people conducting and supporting research.

BIO

Angelique, PhD (Educational Psychology), is responsible for leading The Carpentries efforts to support and grow the volunteer instructor community and member organisations, and to increase our collective impact on researchers across the continent.
