

— ONLINE WORKSHOP —

SOFTWARE CARPENTRY

Shell, Git, Plotting and Programming in Python

14-18 November 2022 | 08h30 - 13h00 SAST

Get more done in less time and with less pain by learning basic research skills

This hands-on workshop will cover basic concepts and tools, including programme design, version control, data management and task automation. Participants will be encouraged to help one another and apply what they have learned to their own research problems.

DETAILS

Who can attend?

Graduate students and other researchers. No previous knowledge is needed of the tools that will be presented in the workshop.

Where and when

14-18 November 2022
Training takes place **online**.

Requirements

- Access to a computer with a Mac, Linux, or Windows operating system (not a tablet, Chromebook, etc.), on which you have administrative privileges.
- Zoom and Wi-Fi
